About our members...

[Union des Radio-Clubs et des Radioamateurs, F8URC](#) nuevo

URC was grounded in 1968 by a group of OM who disagreed with the politics held by the only national organisation at this time. Since then, its goal has remained unchanged: work with the administration and the other associations for the safeguard of the radioamateur status, inform and always remain open to dialog. <http://www.urc.asso.fr>

[Ham Association of Greece](#) nuevo

HAG has about thousand members, all of them very young and with a lot of energy to carry out new activities, and also has the collaboration of several clubs in different parts of the country. One of its major interests is to participate actively in the EuroBureauQSL project. <http://www.hag.gr>
