CISAR: Happy 40th anniversary!!!

C.I.S.A.R. (*Centro Italiano di Sperimentazione (ed) Attività Radiantistiche*) means for Italian Center of Experimentation (and) Radio Activities; it is a founder member of **EURAO** and represents a large group of Italian radio amateurs and radio listeners, who have made technique and experimentation their strong point.

The C.I.S.A.R. was founded in Rome on November 13, 1981, by a group of Roman radio amateurs: the aim was to carry out some experiments in the VHF bands and above, through the experimentation of a series of repeater bridges connected to each other.

The Constitutive Statute itself mentions the aim of "bringing together the radio amateurs concerned to transceivers in general and in particular on high frequencies (VHF, UHF, SHF), promoting any legitimate social activity of education and professional, cultural, recreational experimentation", and also proposes to "install and manage, within the limits and at conditions set by regulatory provisions, radio repeater links, and the connection between them in national backbones"; but, alongside this, there was, and continues to be, the firm intention of "promoting the cooperation of radio amateurs and protect the interests of the Members as regards the specific activity of radio amateurs".

Giorgio Pagan, IW3IBG
Vice-president of EURAO

(Take a look at the video below, created for the occasion)

How to become member of EURAO

Amateur Radio News...

[Radio Clubs of the World Sprint Contest 2021: final results](#) nuevo

The so-called **EANET Sprint Contest**, for short, was held last **November 7** for the eleventh time with participants from six countries: Belgium, Italy, Portugal, Spain, Romania and Cuba. The latter provided a double multiplier: country and continent.

In *radio club* category the winners have been: **EA4RKA**, and **EA1RKS** and **EA3RKM** *ex aequo*; and in the *radio amateur* category: **EA7YV**, and **EA3HKY** and **EA3HLM** *ex aequo*.

All of them will receive the deserved prizes before Christmas. Congratulations and hope to hear you next year!

EURAO Party - Autumn 2021: hunting SES

The **European Radio Amateurs' Organization** announces a new party on the air, this time with the motto: "*hunting SES*". Remember this is not a contest, it is just a radio meeting with a few simple 'rules', better to call them recommendations.

Purpose: SES, special event stations, are very common throughout the year on the air but more especially at this time. They consist of special call signs on the occasion of special commemorations, significant anniversaries or extraordinary events. They can be about Christmas, the World Day of something or an emblematic place. In any case, it is a matter of being attentive, contacting that station and writing it down in the log.

Date & time: from December 15th, 2021, to January 15th, 2022, 00:00-24:00 UTC.

Bands & modes: all modes and frequencies, mainly in HF bands, but not only. [EFG](#).

Call: "CQ-EURAO-Party" (listen the call of the SES).

Exchange: the usual RS(T) and call sign are required.

Logs: for statistic purposes only, we ask participants to submit their logs to party@euroa.org in ADIF format, where the filename should be your call sign (e.g. EA3RKF.ADI).

There will be no results or league tables, only statistical information about number of QSOs, countries, call signs, OMs/YLs/Clubs, etc.

Certificate of Participation: for all those sending the log and without a minimum of confirmed QSOs.

EuroBureauQSL: you can use it to interchange QSLs even if you are not member. In this case, just send the QSL to the entry point in the country of the station you have contacted.

FEDI-EA 2021 Assembly: on-line and open

nuevo

To the prudence of the previous year, avoiding direct personal contact, in this edition we have added opening the Assembly to members, friends and supporters, as in fact we already did with local radio amateurs when the meetings were face-to-face, going beyond the exclusive meeting of last year with only the directors of our member associations. The Assembly was a great success.

EANET Radio Clubs of the World Award

About our members...

Radioclub Sugar Delta

nuevo

RCSD, ON6SD, just founded this 2021, is a club located in Namur region, open to all those interested in radio experiments, whether they are listeners, cibists, dx'ers or radio amateurs, with no elitism. Their ideas: promote amateur radio, the development of technical knowledge, writing articles and social meetings, help the population, etc.

RCSD became member club of **EURAO** to promote and share its activities and knowledge. <https://www.qrz.com/db/ON6SD>

EURAO European Radio Amateurs' Organization
open to the world wide amateur radio community
