## Radio Science 2.0: video of ham activities for kids in Romania

We already explained in our previous Newsletter that a small team of **EURAO** members from Romania, with the financial support of a local foundation in Buzau City: **Fondul Stăntescu**, started in April a program dedicated to the children and young people in order to experience applied science with the help of amateur radio.

Now we present a video of a few minutes (in Romanian) summarizing what children and monitors have done, what they have experienced, what it has contributed to them and how much fun they have had.

Due to the success of that first project, there is already a second project underway dedicated to the creation of an **Emergency Radio Network**.

The objective of this project is to offer children practical, theoretical and technical training with workshops held in 6 schools in Buzau county, using amateur radio and PMR, to support the local community in specific actions for interventions and reducing the effects of disasters in emergency situations.

The project also aims to increase the level of empathy for vulnerable people who suffer the most in emergency situations and increase the degree of civic involvement of children. We will keep reporting.

## How to become member of EURAO

### Novice radio amateurs visiting Spain: no problem to transmit

But prior authorization is needed. No problem either, because our member association in Spain, **FEDI-EA**, can process free applications for members.

It is a temporary authorization **at no cost**, for which you must indicate the place of stay and the start and end dates, for a maximum of 90 days.

As requirements, it is only necessary to provide a copy of the ham licence and the passport.

It is recommended to submit the application well in advance of the trip (six weeks).

The same also applies to those radio amateurs with a full licence from countries that have not adopted the CEPT Recommendations.

Newsletter issue: 2022-12-14

## EA3CWZ SK: great person and great radio amateur

**Joan Lluís Massana Torres, EA3CWZ**, treasurer of the **Federación Digital EA** since 2000 and of **EURAO** since its inception, discreet, affable, always QRV, willing to lend a hand in whatever was needed, positive, with a constructive attitude, with a curious and innovative spirit, has passed away at the age of 87. We will miss him. A lot of!

He tried all facets of amateur radio, but he stood out, above all, for his enormous human quality, a living example of the much acclaimed *ham spirit*. As an association manager, Joan Lluís shunned any desire for prominence and always emanated a generous attitude of service. A true *rara avis* in the sector.

It is not usual for us to announce SKs. But Joan Lluís well deserves an exception. RIP.

## EURAO Party - Winter 2022: hunting SES

The **European Radio Amateurs' Organization** announces a new party on the air, this time with the motto: "*hunting SES*". Remember this is not a contest, it is just a radio meeting with a few simple 'rules', better to call them recommendations.

**Purpose: SES**, special event stations, are very common throughout the year on the air but more especially at this time. They consist of special call signs on the occasion of special commemorations, significant anniversaries or extraordinary events. They can be about Christmas, the World Day of something or an emblematic place. In any case, it is a matter of being attentive, contacting that station and writing it down in the log.

**Date & time:** from December 15th, 2022, to January 15th, 2023, 00:00-24:00 UTC.

**Bands & modes:** all modes and frequencies, mainly in HF bands, but not only. [EFG](#).

**Call:** "CQ EURAO Party" (listen the call of the SES).

**Exchange:** the usual RS(T) and call sign are required.

**Logs:** for statistic purposes only, we ask participants to submit their logs to [party@eurao.org](mailto:party@eurao.org) in ADIF format, where the filename should be your call sign (e.g. EA3RKF.ADI).

There will be no results or league tables, only statistical information about number of QSOs, countries, call signs, OMs/YLs/Clubs, etc.

**Certificate of Participation:** for all those sending the log and without a minimum of confirmed QSOs.

**EuroBureauQSL:** you can use it to interchange QSLs even if you are not member. In this case, just send the QSL to the entry point in the country of the station you have contacted.

**More than 52.000 QSL cards !!!  
have been already managed by EuroBureauQSL**

## Radio Clubs of the World Sprint Contest 2022: final results nuevo

The so-called **EANET Sprint Contest**, for short, was held last **November 6** for the twelfth time with participants from six countries: Italy, Portugal, Spain and Romania.

In *radio club* category the winners have been: **EA1RCQ**, **EA3RKM** and **EA3RCA**; and in the *radio amateur* category: **EA7YV**, and **EA4HNO** and **EA4DT** *ex aequo*.

All of them will receive the deserved prizes before Christmas. Congratulations and hope to hear you next year!
