World Radio Day 2025: Radio and Climate Change

As you know, **13 February** is the day **UNESCO** devotes to Radio, with the aim to enhance this mass media, simple and low cost, specifically suited to reach remote communities and vulnerable people.

The motto of this year, "**Radio and Climate Change**", is especially significant for **EURAO** and radio amateurs, a subcategory within the Radio, who have the opportunity to carry around the world these values, all of them included in our "*ham spirit*".

Several members of **EURAO** organize special activities around this day:

From Spain 🇪🇸 the following stations on air: **AO1WRD, AO2WRD, AO3WRD, AO4WRD, AO5WRD, AO6WRD, AO7WRD, AO8WRD and AO9WRD**; from Friday 7 to Sunday 16.

Also other amateur radio stations from other countries will celebrate this day. Stay tuned and join this event. You're still on time.

Check the website: <https://www.unesco.org/en/days/world-radio>

Newsletter issue: 2025-02-06

Amateur Radio News...

20th anniversary of EURAO (2005-2025): a reliable stakeholder

nuevo

In a very short period of time, **EURAO** has managed to gather around itself many radio amateurs from all over the world in an exciting collective project that has received recognition from many international bodies.

Association, clubs, groups and individuals are part of this young, global and open ecosystem called **European Radio Amateurs' Organization**. Thanks to all for your support.

Happy birthday **EURAO!!!**

Relaunched magazine: Ham Radio Ireland - January 2025

nuevo

Ham Radio Ireland was the logical progression from what started as a Magazine covering the Province of Connacht (West of Ireland).

In point of fact this is the **ONLY** Independent Radio Magazine in Ireland geared towards the Radio Experimenters.

It repeats forthcoming events in its News Section right up to their date of operation. In this way the editors hope to encourage as many groups or clubs to take part.

The Magazine is not affiliated to any Group, Club or Society. This magazine is for all radio and electronics experimenters! It remains non political in all respects of the hobby.

Special thanks to the many who have supported this Magazine and encourages them to re-launch it. By popular demand no less!

EURAO member associations

EURAO Party - Winter 2025: WRD for Radio and Climate Change

The **European Radio Amateurs' Organization** announces a new party on the air, this time with the motto: "*World Radio Day for Radio and Climate Change*". Remember this is not a contest, it is just a radio meeting with a few simple 'rules', better to call them recommendations.

Purpose: the **World Radio Day** (WRD), February 13, was proclaimed in 2011 by the Member States of UNESCO and adopted by the United Nations General Assembly in 2012 as an International Day devoted to Radio, a mass media, simple and low cost, specifically suitable to reach remote communities and vulnerable people. This year WRD's motto is: *Radio and Climate Change*. Radio amateurs can also contribute, and in fact do contribute, to alleviating these harmful effects. So let's spread the word contacting and listening other stations around the world, like us.

Date & time: February 7th to 16th, 2025, 00:00-24:00 UTC.

Bands & modes: all modes and frequencies, mainly in HF bands, but not only. [EFG](#).

Call: "CQ World Radio Day EURAO-Party".
